

PREHOSPITAL TRAUMA LIFE SUPPORT

**Trauma patients requires specialized care—
care that is often delivered in high-stress situations.**

The Prehospital Trauma Life Support course was created in recognition of the real need in EMS education for additional training in the handling of trauma patients.

Developed by the Prehospital Trauma Life Support Committee of the National Association of Emergency Medical Technicians in cooperation with the Committee on Trauma of the American College of Surgeons, the course shares trauma care techniques in an innovative format.

This 16-hour course contains the latest standards in prehospital trauma care using didactic lectures and hands-on skill sessions. After successful completion, the student is certified for 4 years. This program is designed for first responders, EMTs, EMT-Ps, MDs, RNs and other licensed health care professionals.

*Successful course
completion earns
16 hours of CEUs
of Instructor lead
credit for EMTs,
EMT-Ps, & RNs.*
